GENDER: Neutered Male  
AGE: About 3½ years  
WEIGHT: 55lbs  
COLOR: Brown  
ACTIVITY LEVEL: Active

**Second Chance Adoption Program**

## Meet Sarge!

Sarge is a 3 ½ neutered male who came to the Center in Spring, 2018 after an unfortunate incident between him and a cat. We don't know anything about his life before that incident because no owner was ever located for him, but while he has been at the Center we have gotten to know him and have learned that he is a pretty cool pup that has the potential to be a great companion in the right home.

Sarge is a friendly and confident fellow that enjoys going on walks, especially when he gets to go out on the trails. He is willing to explore and would be a great hiking companion. Sarge also really enjoys getting to zoom around the play yard with or without toys. He knows basic obedience commands (sit, down, and come) and is learning more things every time he's worked with. He is very food motivated, which helps with his training.

This boy has very high prey drive and seems to be a problem solver. Sarge is not the dog for the beginner or new dog family. With his smarts and his high drive, he needs to go into a home with an experienced dog owner who can work with him to focus those talents. He would love to have a fun job of some sort and would probably do really well with scent games, tracking, barn hunt, or a fun game of "find it."

Because of his known history, Sarge cannot go into a home with cats. He likes other dogs, but it is recommended that his canine companions weigh at least 20 pounds to avoid a mistaken cat identity. It is also recommended that any children in the home be at least 12 years old and that he have a fenced in yard (no electric fences) that he can zoom around in when he's not hanging out in the house with his family.

If you feel you might be a match for Sarge please stop by the Center to meet him. Sarge is part of the Friends of Montgomery County Second Chance Adoption Program. His adoption fee is \$80. To adopt Sarge, start the process by filling out an application. Please note that his adoption process will likely require multiple visits to the Center to spend time with him, a home visit, reference checks, and a potential follow up visit to ensure a good fit. Please visit the Center to find out more about the Second Chance Adoption Program and for an application.
